

British and Continental Ceramics / Thursday, 25th May 2023 / Lot 1647

## LOT 1647

A Wiener Werkstätte pottery figure by Gudrun Baudisch-Wittke, 1926-30, shape No. 382, the red clay body modelled as a kneeling figure holding a green glazed bowl on their shoulders, raised on a square base, impressed marks to base, height 10cm.

Estimate: £100 - £150

---

## Condition Report

Small area of professional restoration to front right corner of base with associated clear spraying to sides and top edge of green glazed base - this has been incredibly well executed and is only noticeable with a trained eye by the slight difference in surface patination to the underside corner. Otherwise the figure is in good condition overall.
