LOT 788

Condition Report

In generally good condition.

Typical light scratching/wear to the shank.

Some minor scuffing/dents on the high points of the setting, only really visible when viewed under a 10x loupe. Slight wear to one side of the setting, noticeable to one shoulder supporting one of the smaller pink gemstones, the gold has worn away slightly here. Currently the stone is still secure in its setting.

Tiniest nick to the girdle of the pink sapphire, noticeable under a 10x loupe, otherwise ok.
