## LOT 1605

A Berlin porcelain Dresden painted yellow ground jardinière and stand, early 20th century, with three gilt framed panels of exotic birds, underglaze blue sceptre and cancelled marks to base, height of jardinière 19.3cm, diameter of stand 19cm.

Estimate: £50 - £100

## Condition Report

Both the base of the jardinière and the stand's rim have what looks to be heavy limescale buildup. It is powdery in places but crusty and firmly affixed to the surface in other places. It is unknown how easily it could be removed, and to what extent the gilt decoration, some of which it covers, would be harmed in the process. Otherwise some general rubbing to the gilt rims and some signs of wear to the interior of the jardinière.
