### LOT 2008

A 17th century Italian silvered and carved softwood torchère, the top fitted with a circular metal pan above a carved trailing vine and spiral reeded stem, raised on a triform base with claw feet, height 114cm.

Estimate: £400 - £600

---

### Condition Report

2008 - The base sits securely on the floor. The main stem is of one piece construction. The base is made separately. The top has a later wooden disc inclusion where it joins the stem. Three pieces of the castellated rim are missing and a piece (4cm wide) is missing just below. Several further small losses and areas of age related wear.
