

Jewellery / Wed, 6th September 2023 / Lot 577

LOT 577

A silver mounted single row necklace of graduated spherical rock crystal beads with floral motifs to the sides, on a spherical clasp, unmarked, length 48.5cm.

Estimate: £70 - £100

Condition Report

The beads do not have drill holes.

The piece is unmarked, length 48.5cm.

One of the second largest beads has rutile needle inclusions, typical of quartz.

The other second largest bead has a small surface reaching crack, appears like a curving scratch on the surface, it does not currently threaten the integrity of the stone.

Spherical clasp has a few small dents.

Clasp tongue clips in but is fairly easily pulled out, with the weight of the necklace the clasp may not remain secure.

A number of the connecting links have worn, with gaps appearing, these would need to be repaired.
