LOT 650

An Art Deco platinum and diamond bracelet in a graduated openwork panel link design, the principal transitional cut diamond mounted to the centre, otherwise mounted with eight cut diamonds, on a snap clasp, detailed 'All Plat', weight 18.2g, total diamond weight approx 3.00ct, length 18.8cm, with an associated case.

Estimate: £1,500 - £2,000

Condition Report

Clasp in working order, though quite easily comes apart, certainly benefits from having the additional safety fastening.

All diamonds present and currently secure in their settings.

Diamond gradings are estimations, limited by the setting and for guidance only.

Some variation to the colour/clarity, overall approx:

Colour - I-K

Clarity - VS2-SI1

Please note that the links on either side of the central stone are not in identical order.

In the past there may have been a repair (though not evident) which resulted in the links being taken apart and then put back in the wrong order.

Suggested age - Art Deco, circa 1925
