LOT 1618

A Lladro figure Flowers of the Season, No. 1454, with wooden plinth, length 23cm.

Estimate: £200 - £300

Condition Report

Fundamentally the group is in good condition overall.

There are a few minor losses to the relief flowers and foliage, but these are very minimal, and two loose flowers, one loose petal and one leaf are being sold with the group. I can only see one other flower that has been re-stuck.
