LOT 1555

A set of seven Meissen porcelain outside factory painted plates, early 20th century, each with a central arrangement of fruit within trellis moulded rims with scattered fruit and flowers, cancelled underglaze blue crossed swords marks to bases with impressed numerals, diameter 24.8cm.

Condition Report

Each in good condition overall with no cracks, chips or restoration.

There are typical light surface scratches and the gilt rims display a little wear.

One has a glaze blemish to the upper rim edge, which is a manufacturing issue and probably why it was outside factory decorated as a Meissen factory seconds.
