LOT 1826

A uranium ice glass lemonade set, early 20th century, of pale green tint, comprising a jug with amber handle, height 18cm, and four glasses, together with a mixed group of other uranium ice glassware, including a large flared square vase, height 21.5cm, and a mixture of other uranium glass, including a lobed decanter and stopper and a beaded vase with seaweed design, height 14.8cm. Provenance: from the collection of John and Poppy Stallebrass.

Estimate: £60 - £100

Condition Report

Each item in the lot is in good condition overall with no significant damage or repairs.

The gilding on the decanter and stopper is a little rubbed - particularly on the stopper.

The beaded vase has some tiny losses but nothing untoward or terribly noticeable apart from on very close inspection.
