### Condition Report

The majority of the individual links are detailed '9 375', but some are fairly rubbed.

Both swivels detailed '9 375' and 'JG & S'

The T-bar detailed '9 395', 'JG & S', with Birmingham anchor mark

One connecting ring has the Birmingham anchor mark but the date letter is too rubbed to read.

The mount of the sovereign detailed '9ct'. This mount is loose, the sovereign is able to be rotated and the fastening at the top moves.

No obvious repairs overall, but some general wear between the links.
