LOT 2015

An 18th century French cherry farmhouse table, fitted with two deep end drawers, height 83cm, length 176cm, depth 74cm (faults).

Estimate: £100 - £200

Condition Report

2015. General appearance and condition is not particularly good. The top is ok, but does have areas of old woodworm. The base has later brackets fixed to corners and cracks to most leg joints. The sides of the drawers are visible as the frieze is not low enough and the legs are raised up on poor quality blocks.
