

Jewellery / Wed, 21st February 2024 / Lot 546

LOT 546

An 18ct gold and opal single stone pendant, mounted with a curved rectangular opal, length 2.9cm, with an 18ct gold curb link neckchain on a boltring clasp, length 41cm, total weight 5.6g.

Estimate: £180 - £220

Condition Report

The opal does have a couple of surface reaching fractures to the back, one of which runs two thirds of the length of the opal. The overall structure of the opal does not appear to be at risk at present, but it is something to be aware of.

The chain and boltring are in good condition.

Overall some light scratching to the mount.
