

Jewellery / Wednesday, 20th March 2024 / Lot 676

### LOT 676

A bloodstone locket ring, the oval bloodstone hinged to reveal a locket compartment, unmarked, weight 4.8g, ring size approx S1/2.

Estimate: £70 - £90

### Condition Report

The ring has been badly resized in the past, evident at the back of the shank with a piece let in.

Some rubbing and minor loss of definition to the decorated shoulders.

The locket section of the ring is likely only gilt metal, with some signs of a silver coloured metal below the surface. The hinge is in working order.

Some minor nibbling to the outer edge of the bloodstone.

Otherwise the piece is unmarked, we have not tested for gold.
