LOT 2098

A late 20th century teak extending garden table by Gloster, height 70cm, extended length 310cm, depth 110cm, together with a set of eight matching armchairs, height 90cm, width 64cm.

Estimate: £300 - £500

Condition Report

2098. Four of the chairs have cracks to either the horizontal top bars or the uprights. One has a chunk of the joint missing. The set has overall typical weathering, but appears to have only substantial damage to the top bar backs.

The tape visible on the underside of the table does not seem to be doing anything apart from maybe saving scraping bare knees when seated at the table.
