### LOT 2589

A late 18th century Neoclassical carved white marble plaque, modelled in relief with a profile portrait of a Roman male, width 25cm (faults).

Estimate: £60 - £100

### Condition Report

2589. Obvious substantial loss to the oval surround, with some old hairline cracks running from edges. Also some minor surface cracks, one running around nose. The plaque has an overall surface pitting and surface scrapes. It has come to us as the clearance of a bigger deceased estate.
