LOT 1083

A Japanese cast bronze figure of a dragon, 20th century, modelled in a coiled pose holding a detachable glass 'pearl' ball in its claw, unsigned, height 11cm.

Estimate: £40 - £60

Condition Report

1083. The bronze is in generally good condition with no significant damage or repairs. Typical light surface wear and scratches. A bit dirty and dusty so would benefit from a clean. One of the bristles/spikes to the tail may be missing, but could be in the manufacture - either way not obviously noticeable and of minor significance.
