

Jewellery / Wednesday, 17th April 2024 / Lot 649

LOT 649

A gold and diamond marquise shaped ring, mounted with old cut diamonds between split shoulders, detailed '18', weight 3.2g, ring size approx K1/2.

Estimate: £150 - £250

Condition Report

A number of the claws on the outer edge of the head of the ring are worn and require re-tipping.
There are two small gaps either side of the central row of three diamonds, which look a little odd, it is uncertain if two tiny diamonds used to be mounted here or not.
Minimal wear to the shank.
