LOT 573

A gold multiple link bracelet, one end mounted with a small cabochon sapphire, with a foldover clasp, detailed '14kt Italy', weight 22g, length 19cm.

Estimate: £500 - £600

Condition Report

Sapphire cabochon looks to have either a surface reaching inclusion/flare or has been bashed in the past, still securely in setting (only really noticeable when viewed under a 10x loupe).

Clasp working well and fastens securely

Looks like at both ends some of the links have been slightly dented inwards, but this is largely disguised due to the link design.
