## Condition Report

1170. The watch winds and adjusts smoothly and is currently running, but please be aware we give no guarantees to working order or reliability of any clock or watch.

Case is in generally good order with typical light surface scratches and wear.

Dial is a little dirty and worn as can be seen from the images online.

It has been mentioned during the view that the case has quite possibly been later made to fit the movement as the lettering to interior does not quite look right, and the lack of serial numbers to back is also a concern.
