### Condition Report

2102. Really interesting piece of nice quality. Heals label to interior, and what appears to be a monogram on the front (photographed online).

The front decoration is gilt and lacquered on wood, with a trim of brass around the edge of the front.

Condition is quite good throughout, however it would have originally had a glass central door to the interior, which has clearly been broken, as we only have the two brass corner hinges left.

There are just a few very minor surface marks to the front, including two small pices of gilt lacking.
