Condition Report

15. Thick, treacley varnish has heavily browned and discoloured. U.V examination highlights the hole repaired by a patch to the background on the right, another area of overpainting on the left and an area around the cheek and jaw of the sitter. Some further touches of overpainting and filling also highlights under UV. Craquelure throughout but paint appears stable. Paint a little 'thin' in places from previous cleans. Some scuffs and rubbing to paintwork. Considerable surface dirt. Unframed.
