### LOT 2603

A double LP record, The Beatles self-titled 'White Album', early Sleeve No. 0000030, embossed front cover, top loading, black inners, four photographs and poster, mono release PMC 7067-8.

Estimate: £4,000 - £6,000

### Condition Report

2603. Sleeve - still glossy though some discolouration with age, certainly more dark cream than white. Some scuffing and bumps to corners and top edge. Small crease marks extending in from spine. Outline of record clearly visible front and back. Spine rough to the touch suggesting laminate is flaking. Occasional signs of laminate lifting elsewhere at edges, but laminate generally good. Internal gatefold looks good. No obvious signs of repair. Overall fair.

Records - scratches, marks, dulled.

Inners - worn, tears to top edges.

Poster - worn and torn

Photos - some indentations, light horizontal creases to bases of Paul and Ringo. George is flimsier with slightly wider margin and shows greater signs of wear.

Provenance - local private vendor, purchased in the 1960s.
