LOT 2525

Franz Xavier Bergman - an early 20th century Austrian cold painted cast bronze figure of an Arabian man seated on a chair below a lantern, beside a Moorish table and fire, all raised on a carpet base, bearing maker's mark to underside, height 41.5cm.

Estimate: £300 - £500

Condition Report

2525. Some overall paint loss to surfaces. Some of the wire fixings have been lost. Slightly misshapen base so it does not quite sit flat. There are some elements missing including the thin chains that should hang from the lantern. Otherwise it is in generally good order.
