

Cameras and Scientific Instruments / Thu, 17th October 2024 / Lot 1220

### LOT 1220

A collection of eighteen lacquered brass camera lenses, including a Ross Zeiss Anastigmat 1:9 f-272 m/m lens, No. 1663, a J.H. Dallmeyer, London Patent 1a lens, a Perken Son & Rayment 7 x 5 lens, a Ross Zeiss Convertible Anastigmat lens and a Société des Lunetiers lens.

Estimate: £80 - £120

---

### Condition Report

1220. Generally all the lenses are a little dusty and dirty. Some with dents to brass, all with typical surface scratches and wear, and some loss to black paintwork. Glass appears to have no significant damage, cracks or chips but some with minor scratches and all a bit dirty and dusty, but no obvious signs of fungus. Few with slight haze.
