

Jewellery / Wed, 30th October 2024 / Lot 577

### LOT 577

A gold, sapphire and diamond wide band ring, the front collet set with the principal hexagonal cut sapphire, otherwise gypsy set with variously cut sapphires and diamonds, detailed '18ct', weight 20g, principal sapphire dimensions approx 9.4mm x 7.9mm x 4.75mm, ring size approx N.

Estimate: £800 - £1,200

---

### Condition Report

The principal sapphire has a large feather inclusion which is surface reaching at the pavilion and runs beneath the table. It has some noticeable chipping to the culet, some abrasion to facet edges and the odd nick to some facets. The stone moves slightly within its setting.

The other three sapphires are fairly pale in colour. Two of the three are quite badly nibbled and chipped on their crowns. All are secure in their settings.

The diamonds are secure in their settings, and look to be SI clarity.

Overall some scratching/scuffing to the gold.
