### LOT 581

A gold ring, claw set with an oval opal, detailed '9ct', weight 2.4g, ring size approx P1/2.

Estimate: £80 - £120

---

### Condition Report

Some general surface scratching to the opal. There is a small chip to the edge beside and beneath one claw, not noticeable without a loupe.

Play-of-colour largely in the greens and blues, with a subtle orangey hue.

Claws in good condition.

There is an inscription within the shank 'C.K.G. 26/3/42'.

Typical scuffing and scratching to the shank/setting.
