

Jewellery / Wed, 30th October 2024 / Lot 746

## LOT 746

A white metal, amethyst and diamond pendant necklace, the front in a drop shaped design, mounted with the principal large circular and pear shaped amethysts, otherwise mounted with smaller circular cut amethysts between rose cut diamond set foliate motifs, on an amethyst set oval snap clasp, unmarked, length of pendant 5.2cm, length of necklace 43.2cm, with a pair of matching amethyst and diamond set pendant earrings with wire fittings, unmarked, length 4.1cm.

Estimate: £200 - £300

## Condition Report

Necklace - the amethysts are generally in good condition, some subtle colour zoning to the larger drop amethyst, otherwise the larger stones have no obvious inclusions, one or two inclusions evident to the smaller stones.

The diamonds are mostly rose cut, with a few chips here and there.

The tongue of the clasp appears to be lacking its thumb piece which is resulting in it being extremely difficult to remove the tongue from the clasp.

Claws in generally good condition.

Earrings - one of the larger amethysts has a typical 'tiger stripe' inclusion. The larger amethysts have a few nicks to their facet edges, really only noticeable under a loupe.

Claws in good condition.

Both piece with typical light scuffing and scratching to settings.

Likely the white metal is silver but untested and unmarked.
