### LOT 758

A gold, sapphire and diamond ring, mounted with the cushion shaped sapphire between two principal old cut diamonds, detailed '18ct', weight 4.8g, ring size approx M.

Estimate: £300 - £500

### Condition Report

The ring is in fairly good condition overall.

Some slight wear to the claws but all stones secure.

Some wear to the sides of the mount/shank, possibly worn against another ring in the past.

Sapphire we believe is natural, it has a couple of inclusions noticeable under a loupe.

Sapphire approx. 6.8mm x 6.5mm x 4.3mm.

Slight abrasion to the table facet edges of the diamonds. One diamond with a surface chip to the table facet edge.

There are four further diamonds mounted at intervals alongside the two principal stones. One of these is a thin slice of diamond, the other three are rose cut.

The ring will benefit from a professional clean.
