LOT 1613

A Wedgwood Fairyland lustre vase, circa 1920, designed by Daisy Makeig-Jones, decorated in gilt with the Firblocs IV pattern against a ruby ground, the mother-of-pearl glazed interior with three fish to the inner rim, gilt and brown printed Portland Vase mark to base, incised shape No. 2355, height 22cm.

Estimate: £80 - £120

Condition Report

In good condition overall with no cracks, chips or restoration.

The gilding displays some minimal typical wear, but nothing terrible and for a vase of this nature is in remarkably good order.

As is normal with Fairyland there are some typical small scratches (appearing as white marks) and some manufacturing blemishes to the glazed ground, again nothing terrible.
