LOT 2615

An Austrian cold painted cast bronze wall plaque in the form of three budgerigars perched on a leafy branch, width 40cm.

Estimate: £80 - £120

Condition Report

2615. The section of branch next to the left-hand bird is slightly misshapen and bent backwards slightly. Otherwise there is some typical minor surface loss to the paint, mainly to edges and corners. It appears as though the misshapen branch, as well as the other two leafy terminals at the top and right side, may have been restored, but not really visible from the front, just showing areas of grey surface loss on these areas on the back.
