

Cameras and Scientific Instruments / Thursday, 6th March 2025 / Lot 1183

### LOT 1183

A Leica IIIc camera, No. 515647, circa 1950, with Elmar f=5cm 1:3.5 lens, with brown leather case, together with a Voigtlander Colour-Skopar 50mm F2.5 lens and a Canon 135mm F:3.5 lens. Note: the Leica camera was restored with replacement shutters and full service by Malcolm Taylor of Herefordshire, approximately 10 years ago.

Estimate: £200 - £300

---

### Condition Report

1183. The camera is in generally good condition. Typically light surface scratches and wear commensurate with age. Slightly more pronounced wear to metal base edges and winders. The shutters fire at all speeds. Range finder is a little hazy, other window is bright and clear. Focusing in good working order. No scratches or fungus to lens.
