## Condition Report

1100. It is in generally good condition other than some slight foxing/brown spotting which you can see in our online images which can be enlarged. The spots are visible throughout the image but more pronounced down the right hand side.

No creases, tears or significant damage to the paper. A water stain mark to the lower margin visible from the back but not visible from the front. It has obviously been in the frame for quite a long time but was taken out by us to have a closer look and to supply as many images as possible.
